

# Jobausschreibung

AC2T research GmbH

## IT-Administrator

As **Austrian Competence Center for Tribology** ([www.ac2t.at](http://www.ac2t.at)), we have been developing technical and scientific solutions around the topics of **friction, wear and lubrication** for more than 19 years. In addition to the "common" IT infrastructure, we also operate a number of Linux workstations and servers, as well as a high-performance computing cluster.

We are a dynamic IT team that reacts quickly and flexibly to the constantly emerging requirements in research projects.

We are looking for a team player with generalistic IT know-how.

## ACTIVITIES

- Installation/maintenance of workstations and laboratory computers (Windows)
- Installation/maintenance of (virtual) server environments (Linux, Windows, NAS-OS)
- First level support incl. task assignment
- Independent troubleshooting and support
- Participation in IT projects (server migrations, virtualizations, etc.)
- User creation and editing in ActiveDirectory/Exchange 365/Office 365
- Support/management/expansion of the entire network structure including (IP-based) telephone system (switches, firewall clusters, DMZ, printer clusters)

## REQUIREMENTS

- Relevant training in information technology
- Teamwork, organizational skills, accuracy and analytical mindset
- German and English skills

## OUR OFFER

- Permanent employment at location Wiener Neustadt
- Up to 40% home office possible
- 2,500 (negotiable) gross monthly, 40 h/week full-time, a possible overpayment depends on relevant professional experience and/or qualifications
