

Job offer

AC2T research GmbH

Technical employee (m/f/d) in the field of mechatronics / mechanical engineering

As the **Austrian Competence Centre for Tribology** (www.ac2t.at), we have been developing technical-scientific solutions around the topics of **friction, wear and lubricant** application for about 20 years.

We are looking for a person with the appropriate technical training (completed apprenticeship) to assist in the optimization and maintenance of laboratory test equipment.

ACTIVITIES

- Mechanical prototype production (turning, milling, grinding, etc.)
- Optimization or new design of laboratory test equipment
- Maintenance of laboratory equipment and infrastructure
- Maintenance and servicing of experimental laboratory set-ups

REQUIREMENTS

- Completed apprenticeship in the field of mechatronics or mechanical engineering
- Organizational skills, flexibility and the ability to act independently and efficiently
- Interest in challenging and varied tasks
- CAD knowledge (SolidWorks) is an advantage
- German language skills (written & spoken), English language skills advantageous

OUR OFFER

- Scope of employment: Full-time (40 h/week)
- Place of employment: Technology and Research Centre Wiener Neustadt
- Start of employment: immediately
- Minimum salary € 2100,- gross per month based on full-time employment; possible overpayment depends on relevant professional experience and/or qualifications.
