

# Job offer

AC2T research GmbH

## Technical employee (m/f/d)

As the **Austrian Competence Centre for Tribology** ([www.ac2t.at](http://www.ac2t.at)), we have been developing technical-scientific solutions around the topics of **friction, wear and lubricant** application for about 20 years.

We are looking for a person with a technical education (completed apprenticeship, HTL or comparable) to assist in the optimization and maintenance of laboratory test equipment.

### ACTIVITIES

- Application of sensors and sensor validation in laboratory set-ups
- Participation in the optimization or design of laboratory experimental set-ups
- Maintenance and servicing of experimental laboratory set-ups

### REQUIREMENTS

- Interest, flexibility and organizational skills in dealing with ever new and challenging tasks
- Ability to work in a team, initiative, independence, discussion skills, customer-oriented work and manual dexterity
- Knowledge of microcontroller programming would be an advantage
- CAD knowledge (especially SolidWorks) advantageous
- German language skills (written & spoken), English language skills advantageous

### OUR OFFER

- Scope of employment: full-time (40 h/week); part-time possible
- Start of employment: immediately
- Place of employment: Technology and Research Centre Wiener Neustadt
- Minimum salary (assumption: qualification HTL) based on full-time employment: €/month 2.200,- gross; a possible overpayment depends on relevant professional experience and qualification.
