

# Job offer

AC2T research GmbH

## Laboratory technician (m/f/d)

As the **Austrian Competence Centre for Tribology** ([www.ac2t.at](http://www.ac2t.at)), we have been developing technical-scientific solutions around the topics of **friction, wear and lubricant** application for about 20 years.

We are looking for an employee with a technical education (completed apprenticeship, HTL or comparable) to independently perform laboratory experiments in the field of tribology, as well as to participate in the optimization of laboratory set-ups.

### ACTIVITIES

- Carrying out experiments in a laboratory environment
- Data evaluation and participation in the preparation of reports
- Adaptation of laboratory set-ups

### REQUIREMENTS

- Relevant education, e.g., in mechanical engineering, mechatronics or automation technology
- Interest and flexibility in working on new and challenging tasks
- Ability to work in a team, initiative, independence, discussion skills, customer-oriented work and technical skills
- German spoken and written, knowledge of English is beneficial

### OUR OFFER

- Scope of employment: full-time (40 h/week)
- Start of activity: as soon as possible
- Place of employment: Wiener Neustadt
- Gross minimum wage (assumption: HTL) based on full-time employment: € 2,200/month gross; any overpayment depends on relevant professional experience and/or qualification.
