

Job offer

AC2T research GmbH

Mechanical Engineering / Mechatronics

As the **Austrian Competence Centre for Tribology** (www.ac2t.at), we have been developing technical-scientific solutions around the topics of **friction, wear & lubricant application** about 20 years.

Are you interested in varied tasks in an international research team?

We are looking for a person supporting the adaptation and operation of our experimental laboratory infrastructure.

ACTIVITIES

- Adaptation & operation of mechatronic laboratory setups
- Assisting in the elaboration of test methods
- Maintenance of devices
- Sample preparation
- Post-processing of test data

REQUIREMENTS

- Completed education (apprenticeship, Technical College) in the field of mechanical engineering / mechatronics
- Team player, organizational skills, accuracy, analytical thinking
- Fluency in German; knowledge of English is an advantage

OUR OFFER

- Permanent position; location Wiener Neustadt; available immediately
- Full or part-time
- Gross minimum salary based on full-time employment (40 h/week) and fulfillment of requirements: 2.500,- gross/month; a possible overpayment depends on relevant professional experience & qualification
